LION COFFEE

When you buy an unbroken package of LION COPPEE you have coffee that is absolutely pure, strong and invigorating. A single pound makes 40 cups. No other coffee will go so far. You will never know what it is like till you try it. LION COPPEE is not a glazed compound, but a pure coffee and nothing but coffee.

In every package of LION COFFEE you will find a fully illustrated and descriptive list. No housekeeper, in fact, no woman, man, boy or girl will fail to find in the list some article which will contribute to their happiness, comfort and convenience, and which they may have by simply cutting out a certain number of Lion Heads from the wrappers of our one pound sealed packages (which is the only form in which this excellent coffee is sold).

MONDAY EVENING JUNE 24, 1901.

INSECTS AND DISEASE. Surgeon-General Wyman, of the U.S.

Marine Hospital Service, has issued a letter of instructions to the medical officers of the service, calling attention to the importance of insects as factors in the conveyence of disease. There is no longer doubt, he says, as to the relation of the mosquito to the malarial dis-eases. Plague is transmitted from the rat to man by the fi-a. The infection of typhoid fever and to some extent cholera may be conveyed by fies. The mosquito plays an important part in the transmission of yellow fever.

His instructions, therefore, are to give particular attention to this subject and

diseases from the bites of insects, and to place morquito netting over the sick beds. Hospitals must be thoroughly protected with fly screens. Insects from inside should immediately be destroyed. The best method of insect killing, he advises, is by sulphur fumigation. For-maldehyd cannot be depended upon. Pyrethrum powder only stupefies. His orders are, furthermore, to the ef-

fect that collections of water in buckets, pools, etc., are breeding places of mosquitoes, and petroleum must be poured on the surface to kill the young. In vessels coming from regions where yellow fever or malaria prevail special precautions are to be taken.

BONI BUYS EGYPTIAN MUMMIES -At an auction of Egyptian antiquities on Friday at the Guimet Museum, in Paris, Count Boni de Castellane bought a pair of fine mummles found at An-tione, in the Necropolis of the Twelfth Pharanoic dynasty. One of them was the mummy Merneth, the Just. The other was that of a woman named Eu phramia. Both lived 2500 years before Christ, Mrs. Mackey, through her sister, the Countess Telfener, bought two mummies and a lot of antique vases and domestic utensile, presumably intended for some American museum. Count Boni wanted the body of Thias, the famous courtesan, together with her beautiful costumes, but the govern-ment kept these, with some other precious pieces, out of the auction.
